Some individuals may be covered by private dental insurance, either on its own or as a supplement to certain programs.

Certain groups of people have access to targeted programs: the Quebec Program for Oral Care and Daily Oral Hygiene in Long-Term Care Facilities, the Oral Radiation Oncology Program, the Oral Care Program for Rare Diseases, and the Medically Required Dental Care Program.

Certain oral surgery treatments are covered for all holders of a valid RAMQ card when performed in a hospital setting. Examinations, anesthesia (local or general), and X-rays associated with the surgery are also covered.
 Examples: removal of a cyst or tumor, drainage of an abscess, reduction of a fracture, repair of soft tissue tears (cheek, tongue, palate), treatment of osteitis, treatment of the temporomandibular joint, treatment of salivary glands, etc.
